Dear Alan:

You will be distressed to learn that our good friend Campbell Wynne underwent a serious abdominal operation a little over a week ago and is now recovering slowly at Greenland's Nursing Home. He had an intestinal tumor removed, which was of dangerous proportions. It has been a painful ordeal for him, complicated by searing post-operative pains of neuritis type in the shoulder. He seems "over the hump" now, however, and expects to return home in about ten days.

Sincerely,

STAT
